Common abbreviations for names of States and months are also used.

H. or S. followed by a number stands for House bill or Senate bill, respectively.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 62d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, **nor can they be forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.**, are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{10}$ c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

Beginning with July, 1910, the Index to the Monthly catalogue will be issued separately each quarter and will cumulate for the twelve months ending June, 1911. That is, the September number of the Index is an index to the Monthly catalogue for July, August, and September, the December number is an index to the Monthly catalogue for October to December, the March number is an index to the Monthly catalogue for January to March, and the June number will be the Index for the fiscal year 1911. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Manual of information concerning employment for service on the Isthmus of Panama is an illustrated pamphlet giving useful information concerning isthmian conditions to those who are not looking for jobs as well as to those who are. Readers are cautioned not to go to the Isthmus for employment without having first secured appointment through the Washington office of the Isthmian Canal Commission.

Chemistry Bureau Circular 64, which was first issued Dec. 9, 1910, has been already reprinted to meet the large demand. Its title is Studies of poultry from the farm to the consumer.

The Annual report of the surgeon general of the Public Health and Marine-Hospital Service should interest all who care to know of the great work that is being done in guarding the country from the inroads of epidemics and in supplying to medical men and to the public the fruits of research in collected and digested form.

The 6th annual report of the American National Red Cross, covering the calendar year 1910, is a record of good work in a world-wide field. The number of the report does not indicate that Red Cross work is but 6 years old. It indicates only that the American Red Cross was reorganized and incorporated as a national institution 6 years ago. The report is published as House document 1399, 61st Congress, 3d session. The President of the United States is also president of the National Red Cross.

Hygienic Laboratory Bulletin 73, The effects of a number of derivatives of choline and analogous compounds on the blood-pressure, is another of those useful compends of the Laboratory in which the published results of experimentation are digested for the benefit of busy medical men. Sold by the Superintendent of Documents at 10 cents.

Senate document 582, part 2, is a supplement to the National Monetary Commission publication (Senate document 582) entitled The origin of the national banking system, and paged continuously with that publication (pages 213-246). It does not supply general information on its subject but contains merely a reprint (with brief comment) of House bill 693, 37th Congress, 3d session, introduced by Mr. Moorhead of Pennsylvania. No action was ever taken on the bill, but it is nevertheless considered to be a contribution to the history of the national banking system. This document was entered in the March Monthly catalogue, page 516.

War Department document 365 is Regulations for the organized militia under the Constitution and laws of the United States. Besides 126 pages of Regulations it has an appendix giving the Militia acts of February 2, 1901, January 25, 1907, and April 23, 1908, and the Articles of war (Revised statutes, sec. 1342). There is a full index. The Government is of

late paying much attention to the work of increasing the efficiency of the organized militia, this book being one more piece of evidence to that effect. Supplied by the Superintendent of Documents at 40 cents in cloth. This publication was listed in the Monthly catalogue for March.

Entomology Bureau Bulletin 80, part 7, has been reissued in a revised edition. It discusses the one-spray method in controlling the codling moth and the plum curculio. Evidence is brought forward to show that one spraying may be substituted for the three to five sprayings which fruitgrowers have hitherto believed to be necessary.

Farmers' bulletin 437 treats of a system of tenant farming and its results. It concedes that the good old days when every farmer owned his farm have passed and that tenant farming has become a fixed American institution. As considering how to do away with it would be futile, bulletin 437 considers how to make the best of it. All Farmers' bulletins are sold by the Superintendent of Documents at 5 cents each, postpaid in the United States, Alaska, Canada, Canal Zone, Cuba, Guam, Mexico, Philippines, Porto Rico, and American Samoa.

Ethnology Bureau Bulletin 40, part 1, is the beginning of an extensive and authoritative handbook of American Indian languages. Dr. Franz Boas is the editor and the most extensive contributor, but he has several collaborators. There are separate papers on the Athapaskan (Hupa), Tlingit, Haida, Tsimshian, Kwakiutl, Chinook, Maidu, Algonquian (Fox), Siouan (Dakota), and Eskimo languages in part 1. It is a cloth bound volume of 1069 pages, sold by the Superintendent of Documents at \$1.25.

Senate report 1281, 61st Congress, 3d session, is the Report of the Committee on Irrigation and the Reclamation of Arid Lands on the investigation of irrigation projects. March 3, 1909, the Senate adopted the resolution directing the investigation. August 11, 1909, the Committee started the investigation, concluding it November 22, 1909, having in the meantime traveled 12,000 miles and visited 30 reclamation projects. Now their report, 917 pages, has seen the light. Though somewhat belated in publication, it gives a great mass of first-hand information on a live question.

Senate document 645, 61st Congress, 2d session, now in course of publication in 19 volumes, is the Report of the commissioner of labor on the condition of woman and child wage-earners in the United States, prepared in accordance with an act of Congress approved January 29, 1907, and ordered published as a document by Senate resolution, June 15, 1910. The latest issues are vol. 4, The silk industry, vol. 5, Wage-earning women in stores and factories, and vol. 6, Beginnings of child labor legislation in certain States.

A new Geological Survey Water-supply paper for which an active demand may be safely predicted is no. 257, Well-drilling methods. It tells not only how to drill but where. Sold by the Superintendent of Documents at 15 cents.

Chemistry Bureau Bulletin 136, Shell-fish contamination from sewage-polluted waters and from other sources, records the results of recent research. In the opinion of the Bureau, this is a real danger against which precautionary measures should be taken.

There is a whole battery of new Farmers' bulletins this month: No. 367, Lightning and lightning conductors (reprint); 433, Cabbage; 436, Winter oats for the South; 437, A system of tenant farming and its results; 438, Hog houses; 439, Anthrax, with special reference to its suppression; 445, Marketing eggs through the creamery; 453, Danger of general spread of gipsy and brown-tail moths through the importation of nursery stock. All 5 cents a copy from the Superintendent of Documents.

Information concerning some of the principal navies of the world is a series of tables compiled by the Naval Intelligence Office to be used in answering popular inquiries. Sold by the Superintendent of Documents for 5 cents.

Commercial turpentines, their quality and methods for their examination, Chemistry Bureau Bulletin 135, is another exposure of adulterations. 5 cents.

The 26th annual report of the Animal Industry Bureau (1909) has 407 pages, 25 illustrations, and a score of expert special articles on problems connected with the care of domestic animals. Cloth, 50 cents.

A new edition of Naturalization laws and regulations, dated March 15, 1911, and published during April, supersedes all previous editions.

Biological Survey Circular 79, Our vanishing shore birds, paints a pitiful picture of the destruction of these beautiful and harmless creatures, calling to mind the typical story of the meeting of two highly civilized gentlemen, when one said to the other, "It's a fine morning; let's go out and kill something." Circular 79 is illustrated by portraits of the upland plover, yellowlegs, and killdeer.

Another Biological Survey Circular (no. 78) is named Seed-eating mammals in relation to reforestation. Chipmunks, white-footed mice, and ground squirrels are the seed eaters, and their relation to reforestation is very detrimental, for the greedy brutes eat the seeds before they have time to germinate. So successfully do they do this that it has been determined that the first step in reforestation of the burned-over tracts in the national forests must be the destruction of the little rodents.

The Mines Bureau has already become an active publisher. Its Bulletin 8 discusses The flow of heat through furnace walls. 5 cents.

Animal Industry Bureau Bulletin 136 is The diagnosis of glanders by complement fixation. Early diagnosis of this destructive infectious disease is very difficult and very essential. The Bulletin relates to a new method and gives information not previously published in the United States.

Something different will apparently soon need to be done about the Specifications and drawings of the Patent Office. The monthly volumes in which they are bound are now published in three parts, and each part is an enormous book, about 6 inches thick. At this rate each monthly volume takes up a foot and a half of shelf room and a year's volumes fill six regulation library shelves, each three feet long. The subject is no doubt under consideration by the proper authorities.

Recent irrigation legislation is a reprint from the Annual report of the Experiment Stations Office for 1909, with additions to date. 5 cents.

Animal Industry Bureau Circular 170, The extra cost of producing clean milk, is a reprint from the Annual report of the Bureau for 1909.

Additional references relating to reciprocity with Canada is the title of a new list from the Library of Congress which includes messages, speeches, reports, and other public documents of the United States, with a few British and Canadian documents and miscellaneous references to books, magazines, articles, etc. It has 44 pages and index and the Superintendent of Documents sells it for 5 cents.

Forestry in the public schools is Circular 130 of the Forest Service. Every teacher should have a copy.

The Post-Office Department has issued regulations governing the operation of postal-savings depositories (5 cents) and Instructions to postmasters at postal-savings depository offices (5 cents).

Regulations for the Army of the United States, 1910, issued during April, came very near being Army regulations, 1911, the order of the Secretary of War directing its publication bearing date Dec. 31, 1910. The new Regulations is cloth bound and sold by the Superintendent of Documents at 60 cents.

Standards Bureau Circular 30 is likely to be in large popular demand. Its title is Lime: its properties and uses. The Superintendent of Documents has copies for sale at 5 cents each.

A new bibliography from the Library of Congress is Select list of references on boycotts and injunctions in labor disputes. Sold by the Superintendent of Documents at 10 cents.

Strength and organization of the armies of France, Germany, Austria, Russia, England, Italy, Mexico, and Japan is Publication 17 of War College Division, General Staff, published for the information of the regular Army and the organized militia of the United States. Sold by the Superintendent of Documents at 10 cents.

Geological Survey Bulletin 465, The State geological surveys of the United States, will be welcome to many. It describes the various State surveys, their history, organization, and methods, the laws under which they operate, and the publications they have issued. This information has been hitherto widely scattered and difficult to come at. Price, 15 cents.

DISTRICT OF COLUMBIA CODE

For many years the laws of the District of Columbia were in some matters those which came to it from the State of Maryland along with the territory of that State which was set off to form the District. The laws of Maryland as they were at the time of the cession governed in the District until, after several unsuccessful efforts, a District code, providing specifically for most legal emergencies, was enacted by Congress in 1901.

At the time of the formation of the District, more than a hundred years ago (as is still the case in those matters not specifically provided for by statute), the American courts looked to the common law of England for guidance. The result was that in the District of Columbia, as lately as 1901, there were matters of litigation concerning which it was necessary to go back to the reign of Henry VI, that is, before the discovery of

America by Columbus, for the law governing the case. In 1896, a citizen of the District, having entered suit for criminal libel against Charles A. Dana, editor of the New York Sun, it was stated on legal authority that if Mr. Dana had ventured within the District so that papers could have been served on him, and had been brought to trial and convicted, the only penalty that could have been imposed was either to bore his tongue with a hot iron or to fine him a hundred pounds of tobacco. As Mr. Dana never came, the truth of this statement was not tested.

Such was the state of the law in the District when, Mar. 3, 1901, Congress enacted the District code. The passage and publication of this act were welcomed by bar, bench, and public, but in practice it was soon found inadequate, and the very next year, January 31 and June 30, 1902, Congress passed amendatory acts quite as voluminous as the original code. Then a second edition, including all the amendments, was published. This also failed to give full satisfaction, and in 1906 a third edition, newly compiled and indexed, and containing all enactments to Mar. 3, 1905, was published for the use of the House Committee on the District of Columbia. In 1908 the edition of 1906 was reprinted for the use of the Senate Committee on the District of Columbia. These committee editions, however, were not large in number and were not generally available to the bar or the public. As a result, the Code has been virtually out of print for several years past, the few fugitive copies that appeared having been snapped up by second-hand bookdealers and put on sale at very high prices. The demand for a new edition, to be made generally available at the cost of printing, has consequently been very urgent, and it became evident that public interest as well as private convenience would be served by its publication.

Such an edition has been now prepared by Mr. William F. Meyers, of the office of the secretary of the District Government, and a small edition has been ordered printed for the use of the House Committee on the District of Columbia. Taking advantage of this opportunity, and acting under the law which authorizes him to reprint public documents for sale, the Superintendent of Documents has ordered a large sale edition to be printed simultaneously with the Committee edition, thus reducing the cost to the lowest possible limit. The new codes are bound in buckram and are on sale at \$1.25.

LEGISLATIVE REFERENCE BUREAUS

Senate document 7, 62d Congress, 1st session, is a special report from the Library of Congress on a very important subject, that of legislative reference bureaus.

Half a dozen or so years ago Charles McCarthy, an assistant librarian in the Wisconsin State library, initiated the plan of supplying to legislators who were incubating new projects of law information as to legislation elsewhere on the subject or subjects in mind and the results of such legislation. The plan included also supplying expert assistance in drafting bills, to the end that they might be made to mean what they were intended to mean. The McCarthy idea and the method of its carrying

out were found valuable in Wisconsin and have been continued and enlarged there and copied in whole or in part in 20 other States. Finally the idea has got around to Congress, where such expert assistance is more needed than in the States, because of the greater number and complexity of the subjects considered and the wider effect of the legislation enacted. Document 7 brings together a variety of expert material submitted by the Librarian of Congress and prefaced by a pungent letter. Though the whole document fills but 36 pages, it is an enlightening compend of information on its subject.

Its importance lies in the fact that American legislation has been for many years a reproach because of its inexactness, inconsistencies, duplications, and obscurity. These faults are the more serious because of the enormous volume of legislation turned out by the one national and 46 State bodies actively engaged in law making.

The need of trained assistance in this matter, long generally recognized elsewhere, having now been brought before Congress by the introduction of two bills, there is perhaps a hope that eventually action of a salutary kind may be taken.

YELLOW FEVER COMPILATION

Senate document 822, 61st Congress, 3d session, is a compilation of various publications treating of yellow fever both scientifically and historically, several of which had not before been printed as United States public documents. Especial prominence is given to the achievements of Dr. Walter Reed, of the Army Medical Corps, in demonstrating the agency of the *Stegomyia fasciata* mosquito in transmitting the fever. Portraits of Dr. Reed and his associates in the Yellow Fever Commission, Drs. Lazear, Carroll, and Agramento, are given. It is also gratifying to note that the names of the numerous soldiers and other uncelebrated heroes who submitted to inoculations with the fever in the interest of science are put on record in the volume.

A rather curious contradiction, relating to a public document, is found in the work. It relates to an elaborate report on the typhoid fever of the Army camps in 1898, made by Dr. Reed and his associates, Drs. Vaughn and Shakespeare.

In a sketch of the life of Dr. Reed, by Dr. Jefferson R. Kean, of the Medical Corps of the Army, it is stated (page 15) that the full report of Drs. Reed, Vaughn, and Shakespeare, "has never been published in full, but only an abstract of it containing some 240 pages, and, on account of the failure to publish and disseminate the full report, its conclusions are but little known abroad or among the members of the medical profession in this country. Many of the facts in it were rediscovered by the English during the Boer War, and it is probable that its prompt publication and dissemination would have saved many thousand lives during that war."

In a Memorandum for the President, prepared by Dr. R. M. O'Reilly, surgeon-general of the Army, Aug. 30, 1906, it is said of the same report (page 18): "This vast work, of which the full report was published by special authority of Congress about a year after Dr. Reed's death by the

only surviving member of the board, Prof. Victor C. Vaughn, of the University of Michigan, was one of the most valuable contributions to science which has been made by the Surgeon General's Office."

Gen. O'Reilly was correct and Major Kean was in error. Both the abstract and the full report were published, the former in 1900, the latter in 1904. The full report was in 2 volumes, one of text, though with several plates, and the other wholly made up of maps and charts. Dr. Kean is, however, entirely correct in the statement that the full report was not available for the use of the medical officers in the Boer War, which began in October, 1899, and ended May 31, 1902. It is indeed possible that Dr. Kean's sketch was written before the publication of the full report. No date is attached to its present publication, and it does not appear that it had been previously published; if it had been, it might well have been re-edited to prevent the appearance of contradictory statements on adjacent pages in document 822.

The Reed typhoid fever report, both the Abstract and the full Report, is still on sale by the Superintendent of Documents. The Abstract is in paper covers, at 15 cents. The full Report is in either paper or cloth, at these prices: vol. 1, paper 80 cents, cloth \$1.20; vol. 2, paper \$1.50, cloth \$2.25.

FORTHCOMING DOCUMENTS

The United States Senate, April 28, 1911, ordered the compilation and publication of several interesting documents.

One is to contain all the proceedings of the Senate—debates, reports, votes, etc., relating to the tariff of 1842. Another is to contain the corresponding material relating to the tariff of 1846, a third will make a similar record for the tariff of 1857, and a fourth will bring together the official material concerning the Canadian reciprocity treaty of 1854. These may be combined and published as one document.

A reprint was also ordered of House executive document 64, 31st Congress, 1st session, which contains a message of May 7, 1850, from President Taylor, a speech delivered by Senator John A. Dix, January 23, 1849, diplomatic correspondence of 1849 and 1850, and other material relating to the proposed reciprocity treaty with Canada which was finally consummated in 1854.

Volume 1 of the Decisions of the Court of Customs Appeals has gone to press. These Decisions, from June, 1910, have been published in the Treasury decisions, but it is thought advisable that they should be segregated and made a permanent record under the name of the new court. The Superintendent of Documents will have copies of volume 1 for sale.

NEW SERIES

The State Department is now issuing its instructions to consuls in a numbered series. Not only is the numbering an innovation, but the form also. From time immemorial all printed communications from the State Department, whether long or short, have been on heavy paper of folio or foolscap size or larger. The instructions to consuls, General

and Special, are now printed on thin paper of 12mo or small note size. Thus both economy and convenience are served. The special reason assigned by the Department for the numbering is that by means of it consuls will be enabled to know whether or not they are receiving the whole series, and a very good reason it is. There is great virtue in numbers when the handling of many documents is the business in hand. The first numbered consular instruction was issued Jan. 3, 1911, and to date the number has reached 23.

Tariff notes, nos. 1 and 2, Manufactures Bureau, are 5-cent pamphlets of collected notes from the Daily consular and trade reports, announcing changes, actual and proposed, in tariffs and customs regulations made in countries with which we have trade relations. Other numbers will be issued from time to time as material for them may accumulate.

Imported merchandise entered for consumption in the United States and duties collected thereon during the quarter ending September 30, 1910, is the title of the first issue of a new quarterly periodical prepared in the Statistics Bureau, Commerce and Labor Department. Its purpose is to present more promptly important statistics which heretofore have been published only in the annual volume on commerce and navigation. These statistics will still be found in Foreign commerce and navigation, but are not given in the Monthly summary of commerce and finance.

Soils Bureau Circular 23 is no. 2 of a new series entitled Soils of the eastern United States and their uses. The title of no. 2 is The Norfolk fine sand, which is a famous truck soil.

The Mines Bureau has announced two new series, Technical papers and Miners' circulars. In the first named three numbers are soon to be issued: 1, The sampling of coal in the mine; 2, The escape of gas from coal; 3, Specifications for the purchase of fuel oil by the Government. Of the Miners' circulars three numbers have been printed and a fourth is announced for early publication.

AN OMISSION MADE GOOD

For causes which have not been made known to the compilers of the Monthly catalogue, War Department Report, 1910, vol. 1, was sent out to the Depository libraries minus two maps which should have been in it.

The omission has now been made good by sending the missing maps to the libraries. They have been gummed at the proper edge, so that with slight moistening they may be securely fastened in the volume. The map of the United States should face page 144. The map of Alaska should face page 654.

This document was catalogued in the Monthly for February, 1911, the first entry under the heading War Department. It will be noted that the collation does not specify maps. They were not in the book as it came to the cataloguers, nor was there any indication in contents or elsewhere that they should be in. The truly complete book usually has in the front a list of the illustrations which it has or should have.

MONTHLY CATALOGUE

No. 196

APRIL

1911

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants enabling them to select such reports and bulletins as interest them.

- Annual reports of Department, year ended June 30, 1910. 1911. 953 p. il. *Cloth, 75c. Agr 9—987/2
- Same. (H. doc. 1007, 61st Cong. 3d sess.)
- [Bureau of Animal Industry] order 175, amendment 3, 179; Apr. 17, 1911. [1911.] [Consist of orders concerning quarantine of cattle, etc.] †
- Correspondence relative to Hydro-Electric Co. of California. Mar. 4, 1911. 121 p. 1 pl. (H. doc. 1424, 61st Cong. 3d sess.) ‡ 11—35372
- Food inspection decision 132-134. Apr. 6-25, 1911. Each 1 p. † Agr 7—1659/2
- In Court of Appeals of District of Columbia, Apr. term, 1911, no. 2257, United States v. Antikamnia Chemical Company; supplemental brief on behalf of appellants. [1911.] 36 p. ‡
- Instructions regarding collection of samples under insecticide act of 1910. Apr. 25, 1911. 10 p. *Paper, 5c.
- Notice of judgment 798, 799, 801-821, food and drugs act. Mar. 31-Apr. 18, 1911. † Agr 8—878/4

ANIMAL INDUSTRY BUREAU

- Anthrax, with special reference to its suppression; by Henry J. Washburn. Apr. 8, 1911. 16 p. (Agriculture Dept. Farmers' bulletin 439.) *Paper, 5c. Agr 11—477/2
- Cattle-ticks. Eradicating cattle ticks in California; by William M. MacKellar and George H. Hart. 1911. iii+283-300 p. il. 1 pl. (Circular 174.) [From 26th report, 1909.] *Paper, 5c. Agr 11—484/3
- Directory of bureau. Apr. 1, 1911. 65 p. *Paper, 5c. Agr 10—511/2
- Domestic animals. Information for importers of animals for breeding purposes; [by G. Arthur Bell]. Apr. 22, 1911. 3 p. (Circular 177.) *Paper, 5c.
- Eggs. Marketing eggs through creamery; by Rob. R. Slocum. Apr. 17, 1911. 12+ii p. (Agriculture Dept. Farmers' bulletin 445.) *Paper, 5c. Agr 11—478/3

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to \$11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least \$5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see next page.

Maps

United States. [Scale 1:16,000,000.] [Washington] Geological Survey,
edition of Mar. 1911. 7.5×11.6 in. † 1c.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c. each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 3c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least \$3.00.

Georgia—North Carolina—Tennessee, Ellijay quadrangle, lat. 84°—84° 30',
long. 34° 30'—35°. Scale 1:125,000, contour interval 100 ft. [Wash-
ington, Geological Survey] edition of Jan. 1911. 17.5×14.5 in. † 5c.

Minnesota, Barrett quadrangle, lat. 45° 45'—46°, long. 95° 45'—96°. Scale 1:62,500, contour interval 10 ft. [Washington, Geological Survey] edition of Feb. 1911. 17.5×12.3 in. † 5c.

Minnesota, Herman quadrangle, lat. 45° 45'—46°, long. 96°—96° 15'. Scale 1:62,500, contour interval 10 ft. [Washington, Geological Survey] edition of Jan. 1911. 17.5×12.3 in. † 5c.

New York, Neversink quadrangle, lat. 41° 45'—42°, long. 74° 30'—74° 45'. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Dec. 1911. 17.5×13.1 in. † 5c.

- Ohio, New Lexington quadrangle, lat. $39^{\circ} 30' - 39^{\circ} 45'$, long. $82^{\circ} - 82^{\circ} 15'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Jan. 1911. 17.5×13.6 in. † 5c.
- Pennsylvania, Butler quadrangle, lat. $79^{\circ} 45' - 80^{\circ}$, long. $40^{\circ} 45' - 41^{\circ}$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1911. 17.5×13.3 in. † 5c.
- Texas, San Marcos quadrangle, lat. $97^{\circ} 30' - 98^{\circ}$, long. $29^{\circ} 30' - 30^{\circ}$. Scale 1:125,000, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1911. 17.5×15.3 in. † 5c.
- Utah, Frisco special map, lat. $38^{\circ} 23' - 38^{\circ} 32'$, long. $113^{\circ} 04' - 113^{\circ} 21'$. Scale 1:62,500, contour interval 50 ft. [Washington, Geological Survey] edition of Feb. 1911. 13.8×16.3 in. † 5c.
- Wisconsin, Winnebago special map, lat. $43^{\circ} 45' - 44^{\circ} 15'$, long. $88^{\circ} 15' - 88^{\circ} 33'$. Scale 1:62,500, contour interval 10 ft. [Washington, Geological Survey] edition of Mar. 1911. 35×15.3 in. † 10c.

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office. The Superintendent of Documents sells the monthly volumes at \$5.00 per volume or \$60 per year, and back numbers, prior to 1907, may be had at \$3.00 per volume or \$36 per year.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to \$10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at \$1.00 per package, or in books containing 100 coupons at \$5.00 per book. One coupon will procure a specification with drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Feb. 1911 [with list of inventions]. [1911.] lxxxviii p. large 8° [Monthly index to Official gazette.] *Paper, 10c. single copy, included in price of Official gazette for subscribers.

* Paper, 10c. single copy, \$1.00 a yr.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given postoffice, sold at 10 cents each; the other, the rural free delivery routes in an entire county, sold at 50 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post-Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1911, page 367.

PRESIDENT OF UNITED STATES

- Campbell, W. V. Executive order [authorizing appointment of Campbell, M. J. Enright, S. G. Proffit, C. E. Seitz, Harry Tarbell and P. B. S. Pinchback as classified employees in internal revenue service]. Apr. 17, 1911. 1 p. f° (No. 1335.) ‡

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The volumes of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for free distribution. Publications should be ordered by the serial number. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Bibliography of scientific writings of R. E. C. Stearns, by Mary R. Stearns; with biographical sketch, by William H. Dall. Washington, Smithsonian Institution, 1911. [2]+15 p. 1 por. (Publication 2007; Smithsonian miscellaneous collections, v. 56, no. 18.) † Price on application.

Cambrian geology and paleontology [v.] 2 : 2, Middle Cambrian Merosotomata; by Charles D. Walcott. Washington, Smithsonian Institution, Apr. 8, 1911. [2]+17-40 p. 6 pl. (Publication 2009; Smithsonian miscellaneous collections, v. 57, no. 2.) † Price on application. 8—35374/3

NOTE.—The first volume of papers on Cambrian geology and paleontology was issued as volume 53 of the Smithsonian miscellaneous collections; the second volume is now appearing as volume 57 of that series.

The first paper in the second volume on Cambrian geology and paleontology (Smithsonian miscellaneous collections, v. 57, no. 1) was entered in the Monthly catalogue for August, 1910, page 85, 2d entry, and reads incorrectly "Same: 11, Abrupt appearance of Cambrian fauna on North American continent, etc." This entry should read "Same [v.] 2: [1], Abrupt appearance etc."

Descriptions of 15 new African birds; by Edgar A. Mearns. Washington, Smithsonian Institution, Apr. 17, 1911. [1]+11 p. (Publication 2010; Smithsonian miscellaneous collections, v. 56, no. 20.) † Price on application.

Silver disk pyrheliometer; by C. G. Abbot. Washington, Smithsonian Institution, Mar. 31, 1911. [2]+10 p. 1 pl. (Publication 2008; Smithsonian miscellaneous collections, v. 56, no. 19.) † Paper, 5c.

Some results of recent anthropological exploration in Peru [with bibliography]; by Aleš Hrdlička. Washington, Smithsonian Institution, 1911. [2]+16 p. 4 pl. (Publication 2005; Smithsonian miscellaneous collections, v. 56, no. 16.) † Price on application.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Bulletin 20 [to supplement information given upon charts of Great Lakes]. U. S. Lake Survey Office, Detroit, Mich., [Apr.] 1911. 400 p. il. 3 tab. 4° † 8-35459/3
